Tanush Bhatt

Python &AI Developer

tanushbhattmains@gmail.com 9313566538 Ahmedabad LinkedIn GitHub

SUMMARY

Computer Engineering student at **Ganpat University** with hands-on experience in **Python, AI/ML, and application development**. Experienced in building **AI-powered applications** using **Python, Flask, APIs, and Generative AI**, along with developing mobile applications using **Android Studio**. Built projects involving **machine learning, conversational AI, automation, and data-driven solutions**. Interested in building practical software solutions and growing as a **Python/AI developer**.

EDUCATION

B.Tech – Computer Engineering 08/2024 – 08/2028
Ganpat University Mehsana, Gujarat, India
CGPA: 8.86 (Sem - 4)

Class 12 – Science (PCM) 2022 – 2024
Shri N.P Bhalodia Junagadh, Gujarat, India

SKILLS

Languages: Python, Java, JavaScript, C, SQL
AI/ML: Scikit-learn, Pandas, NumPy, Gen AI, Gemini API
Web & Backend: Flask, REST APIs, HTML, CSS
Mobile: Android Studio, Android Development
Databases: PostgreSQL, MongoDB, SQLite
Tools & Automation: Git, GitHub, n8n, Twilio

EXPERIENCE

Python Development Intern — QSkill 07/2026 – 08/2026
Python | Flask | Gemini API | Speech Recognition | NLP
Completed intermediate-level Python development tasks including a voice-activated personal assistant, sentiment analysis web application, and Gemini-powered conversational AI with conversation history and real-time information retrieval.

PROJECTS

AgriYield AI — Crop Yield Prediction Platform 09/2026 – 09/2026
Code Genesis Hackathon | Python | Flask | Scikit-learn | PostgreSQL | Gemini AI | JavaScript
Developed an AI/ML platform using **10,000+ agricultural records**, achieving **R^2 0.9508** with Gradient Boosting, with Flask APIs for yield prediction, soil analysis, weather insights, and Gemini-powered assistance.

SPARK AI Assistant 04/2026 – 05/2026
Python | Flask | HTML | AI Integration
Built an AI-powered virtual assistant using Python and Flask that automates tasks, processes commands, and generates intelligent responses.

AI Reel Generator 05/2026 – 06/2026
Python | Flask | Gemini AI | ElevenLabs | Cloud Deployment
Developed an AI-powered reel generator that automates script creation, AI voiceovers, and content generation for social media videos.

CERTIFICATES

Data Analytics Job Simulation
Deloitte | Data Analytics

5-Day Intensive AI Agent Course
Google & Kaggle | AI Agents, LLMs, Generative AI

Complete Python Bootcamp
Code With Harry | Python Programming, OOP, Libraries

Design a Dream Destination with AI
Microsoft | Generative AI, Prompt Engineering

HACKATHONS

Code Genesis — 16+ Hours Overnight Hackathon 09/2026 – 09/2026
Participated in an overnight hackathon focused on developing technology-based solutions.

Smart India Hackathon (SIH) 2025 09/2025 – 09/2025
Participated in SIH 2025, collaborating on problem-solving and innovation in a national-level hackathon.
